## NARRATIVE

Page 1

18-09733

On 10-3-2018, Sergeant Weidner, Deputy Wang, Deputy Lorenzatti, Deputy Watt and Deputy DeMartini were involved in a critical incident during a contact with Suspect Chinedu Okobi (DOB: 2-13-1982). This incident began at approximately 1301 hours on El Camino Real at the intersection with Millwood Drive. After a physical altercation, in which Deputy Wang was assaulted by Okobi, Okobi was eventually detained in handcuffs. Sometime after Okobi was secured, he suffered some type of medical emergency. Okobi was transported by ambulance to Mills-Peninsula Medical Center (1501 Trousdale Drive in Burlingame) where he was later pronounced deceased. Deputy Wang was also transported by ambulance to Mills-Peninsula Medical Center where he received medical treatment for injuries he sustained during the altercation.

The details of this incident, including the actions of Sheriff's Office personnel and the actions of the suspect, are being investigated by the San Mateo County District Attorney's Inspectors Office per the counties critical incident protocol. The Inspector's Office case number is #18-1003-02.

**POTENTIAL LEADS/RECOMMENDATIONS:**

Case to be forwarded to the San Mateo County District Attorney's Inspectors Office for information.

SUPPLEMENT 1

Page 1

18-09733

**Addendum:**

On Wednesday, October 3, 2018 approximately 1330 hours, I was assigned to assist the San Mateo County Sheriff's Millbrae Bureau for calls of service due to a "Critical Incident" that had occurred approximately 1304 hours.

Approximately 1720 hours, I was in the parking lot of the Millbrae Bureau located at 581 Magnolia Avenue, City of Millbrae, County of San Mateo talking to Deputy Richard Isla who secured his patrol equipment in the front seat of a marked Sheriff's Patrol Vehicle # 16.

As a general practice, I check the prisoner compartment (rear seat) of the patrol car to insure no contraband, weapons, or personal property has been placed there by a detained suspect(s), transported prisoner(s) or a deputy. While doing so, I discovered two duffle bags and a brown paper bag that had a handwritten name tag attached with the name of Okobi, Chinedu Valentine. I removed the items from the patrol vehicle, apprised Sergeant Szerenyi, who escorted me to the Armory Room, which is located inside the Millbrae Bureau. I placed the items on the floor, and Sergeant Szerenyi secured the Amory Room.

**Additional Information / Recommendations:**

Forward addendum to the Sheriff's Detective Bureau or Inspector(s) from the San Mateo County District Attorney's Office-Bureau of Investigation for their perusal.

**SUPPLEMENTAL NARRATIVE:**

On 10/3/18 at 1341 hours, Detective Chaghouri and I responded from HOJ, 400 County Center, Redwood City, to Mills Peninsula ER. We arrived at approx. 1400 hours, and noted that medical staff were attending to (later identified as) Chinedu Okobi in ER Treatment #2. During this time, we did not enter Okobi's treatment area. Deputy Wang was being attended to in ER #18. Detective Chaghouri took several subsequent photographs of Wang's injuries (see attached). At approx. 1417 hours, medical staff pronounced Okobi deceased and exited his room. Afterwards, I entered and took several subsequent photographs of ER #2 and remained until relieved by DCPD Detective B. Scholes.

**EVIDENCE:**

JC1 - DVD with photographs from Mills Peninsula Deputy Wang and ER #2.

**RECOMMENDATIONS:**

Attach supplemental to main case file.

## SUPPLEMENTAL REPORT

### NARRATIVE:

On 10/09/2018, at approximately 1330 hours, I was approached by Deputy J. Acosta in the parking garage to the San Mateo County Sheriff's Transit Office located at 1250 San Carlos Avenue, San Carlos. Deputy Acosta asked me if I was going toward Millbrae while on patrol this afternoon and if I would be able to deliver two sets of handcuffs to the Sergeant on duty at the Millbrae Substation. I told Deputy Acosta I would deliver the handcuffs later in the afternoon.

At approximately 1800 hours, I arrived at the Millbrae Sheriff's Substation and located Sergeant Szerenyi who was walking with a man, later identified as San Mateo County District Attorney's Office Investigator, Bill Massey. I explained to Sergeant Szerenyi I was delivering two sets of handcuffs which Deputy Acosta had recovered the week prior from 10/03/2018.

Investigator Massey asked me to book the handcuffs into Sheriff's property and supply a Supplemental Report explaining my chain of custody.

### EVIDENCE:

JB-1 - Two sets of metal handcuffs (one stainless steel and one black) placed into a Sheriff's Office Evidence Enveloped and booked into Sheriff's Property.

### POTENTIAL LEADS AND RECOMMENDATIONS:

Please attach to original report.

SUPPLEMENT 4 - Initial Response and Returned Property

Page 1

18-09733

**INVESTIGATIVE SUPPLEMENTAL REPORT #4:**

On 10-3-2018, at approximately 1335 hours, I was advised that San Mateo County Sheriff's Office personnel had been involved in a critical incident and at least one Deputy Sheriff and the suspect were being or had been transported to Mills-Peninsula Medical Center for treatment. I further learned that the suspect had some type of medical emergency during or shortly after the incident.

At approximately 1352 hours, I made contact with Deputy Javier Acosta, whom I had been told followed the suspect's ambulance to the hospital. I inquired about the status of the suspect and was informed by Deputy Acosta that it appeared the suspect was not going to survive his medical emergency. I advised Deputy Acosta that I would meet with him at the hospital.

I briefed Lieutenant Dal Porto about the situation and it was decided that he and I would respond to the hospital to further investigate. I also learned Sheriff's Office Detectives and Inspectors from the District Attorney's Office were responding to the scene and the hospital to investigate.

At approximately 1420 hours, while en route to the hospital, I received a call from Deputy Acosta who informed me the suspect had been pronounced deceased at approximately 1417 hours.

At approximately 1440 hours, Lieutenant Dal Porto and I arrived at the hospital and made contact with Detectives Carroll and Chaghouri outside emergency room #2. Detectives Carroll and Chaghouri were standing by with the body of the deceased suspect, which was located on the hospital bed and covered by a white sheet. Detective Chaghouri informed me that Deputy Wang was being treated inside emergency room #18 for injuries he sustained during the altercation.

I spoke with Deputy Acosta and asked if the suspect had been identified. Deputy Acosta told me the suspect had been identified as Chinedu Okobi [REDACTED] While I was observing Okobi's body, a nurse entered the room and used a scale built into the bed to weigh Okobi. The scale showed his weight to be 337 lbs.

The San Mateo County Critical Incident Protocol was activated and followed as a result of this incident. All further investigation and follow up into the events of this incident will be conducted and documented by the San Mateo County District Attorney's Inspectors Office. Their case number for this incident is 18-1003-02.

During the investigation into this incident, the DA Inspectors collected the uniforms, duty pistols, duty belts, gear, Taser's and other miscellaneous items from the involved Sheriff's Office personnel.

The District Attorney's Inspectors conducted their interviews with the involved personnel and their respective representatives on 10-4-2018 and 10-5-2018. After the interviews were completed, Senior Inspector Bill Massey returned the majority of property to me that had been collected from the involved personnel on 10-3-2018. The following is a list of the items returned to me:

**Deputy Wang**

- handcuff case, radio holder clip (no holder or radio)
- Duty pistol, Smith and Wesson MP 9mm (serial number #HUR3012) with magazine (17 rounds and 1 in chamber)

DA's Office retained Taser X26, serial number X00-564295

**End of property description**

During a review of the above listed property, it was discovered that Sergeant Weidner's outer ballistic vest carrier had a dark reddish-brown substance on it that appeared to be blood. The apparent blood was located on the utility pouch that contained his secondary weapon (right breast side next to magazine holders). I took digital photographs of the apparent blood and Sergeant Weidner's vest carrier was retained as evidence (item #30).

I examined all of the above listed returned property for further evidence related to the incident. I also took digital photographs of all of the returned property. Those photographs were later downloaded onto a DVD-R disc and booked into evidence (item #36).

The uniform pants and shirts collected by the District Attorney's Office and later returned to me were all retained as evidence. I later booked the articles of clothing into evidence (see property page). Deputy Watt's ASP collapsible baton, which was removed from his ballistic vest carrier, was also retained as evidence (item #33).

The duty pistols collected from all of the involved personnel and the secondary pistols of Sergeant Weidner and Deputy Watt were all rendered safe and booked into evidence (items #3-#8). Deputy Wang's duty pistol, his Taser and his complete duty belt were all retained by the District Attorney's Inspectors Office for further investigation. It should be noted that the duty pistol and secondary pistol collected from Sergeant Weidner was personally owned. The duty pistol collected from Deputy Lorenzatti was personally owned. The secondary pistol collected from Deputy Watt was personally owned. For further description of the pistols, refer to the property section of this report.

I obtained 10 separate in-car camera videos related to this incident from the WatchGuard video system. Those videos related to this incident were marked by property and retained as evidence. For further details, refer to evidence items 10-19. I provided copies of the videos to DA Inspector Draper for his investigation.

On 10-22-2018, at approximately 1150 hours, Senior Inspector Massey returned the four Tasers collected from Sergeant Weidner, Deputy Wang, Deputy Lorenzatti and Deputy Watt to me. I later booked the Taser's into property (items #20-#23).

On 10-25-2018, at approximately 1330 hours, I met with Deputy DeMartini inside my office. All of Deputy DeMartini's property listed above with returned to him with the exception of his uniform shirt and pants.

### **AWARENESS:**

On Wednesday October 3, 2018, at approximately 1300 hours, Deputy P. Miqueo and I were in San Bruno conducting follow up at the San Bruno Caltrain Station. At approximately 1301 hours, I heard Deputy Wang, via county radio, request code 3 cover for assistance with a male subject running in and out of traffic on El Camino Real and Santa Helena. I then heard Deputy Wang say he deployed his Taser and the subject was still resisting.

Deputy Miqueo and I responded code 3 from San Bruno and while in route to Millbrae, I heard Deputy Wang broadcast that he again deployed his Taser with no results and the subject continued resisting.

At approximately 1308 hours, I heard Sergeant Weidner arrive on scene and request additional units as the scene was not secure. At approximately 1311 hours, Deputy Miqueo and I arrived on scene. I saw a black male subject seated on his bottom and Deputy Lorenzatti and Deputy Wang behind the subject, holding the subject up in a seated position with their knees/shin. Deputy Wang had blood dripping from the left side of his face and Deputies Watt and Lorenzatti were red in the face and winded.

There was a white Ford truck in the area and I opened the tailgate and escorted Deputy Wang to the truck and seated him on the tailgate. I then went to the unknown subject and placed my left knee/shin against his back to keep him in his seated position. I then advised over the radio to send medics into the scene.

Medics tended to the unknown subject and he was unresponsive. Medics checked the subject for a pulse and confirmed he had a pulse. They then did a sternum rub on the subject and he did not respond. Medics started CPR.

At approximately 1330 hours, I followed AMR #37 to Mills Peninsula, code 3. Upon arrival, CPR continued until approximately 1417 hours, when the subject was pronounced deceased by Medical Doctor Jason Bryant and Cardiologist Robert Zipkin.

SUPPLEMENT 6

Page 1

18-09733

## AWARENESS:

On October 3, 2018 at approximately 1301 hours, I was on duty as a patrol supervisor for the San Mateo County Sheriff's Office Transit Police Bureau. I was in a fully marked patrol vehicle conducting a station check of the San Bruno Caltrain Station. I heard a broadcast over the police channel of a deputy in Millbrae requesting assistance. Deputies Padro Miqueo and Javier Acosta (assigned to the Transit Police Bureau) were conducting the station check with me at the time of the request for assistance. I authorized the deputies to respond to the location (El Camino and Millwood Drive in Millbrae) Code 3. I also responded to the location with my vehicle's lights and sirens activated.

## SUMMARY:

Upon arrival on scene, I exited my patrol vehicle and observed a black male adult was in a seated position the middle of El Camino Real. The subject's hands were restrained behind his back and two deputies were keeping the subject upright by standing behind him and using their knees to support him in his seated position. They were using their hand to hold the subject's shoulders/ upper body. The subject was not struggling nor were the deputies exerting force / pressure in keeping the subject in his position. I observed Deputy Acosta run up and replace one of the two deputies who were assisting the subject in sitting up. The subject was breathing at the time of my initial observation due to the fact that his chest and upper body were moving as he inhaled and exhaled heavy breaths.

I also noted that Sergeant Weidner was directing northbound traffic on El Camino Real. The northbound number 1 and 2 lanes had been blocked off by patrol vehicles and other government vehicles. The number 3 was open and vehicles were slowly passing by. Sergeant Weidner was standing approximately 10 feet away from the detained subject, directing traffic. I replaced the sergeant and took over traffic control. I knew that the ambulance and additional fire personnel were stuck in the northbound traffic and I wanted to relieve some of the congestion so they could make their way up to our location. Shortly after I took over, an American Medical Response ambulance arrived and I stopped all other vehicle traffic from proceeding through in both directions of El Camino Real from Millwood Drive to Santa Helena. San Bruno Police arrived on scene and I directed them to close off that section and assume traffic control.

I directed Deputy Acosta to cordon off the area with police tape. I also directed Deputy Miqueo to began identifying and obtaining potential witness information. I observed several subjects were standing on both sides of El Camino Real watching / video recording this incident. I assisted Deputy Acosta and Sheriff's Office CSO Joseph Gonzales in placing crime scene tape on both sidewalks of El Camino Real (West and East) and across El Camino Real at Capuchino Drive and San Juan Avenue.

I walked back to the area in where the subject was receiving medical attention and heard on of the fire fighters say that the subject was not breathing. I directed Deputy Lorenzatti to remove the metal handcuffs from the subject, which she did, and the subject was placed on his back. The Fire Department and AMR promptly began CPR. During this time, I requested that the Sheriff's Office Detective Bureau be notified of this incident and requested them to respond to the scene. The subject was transported to Peninsula Hospital by AMR. I requested that the detectives be notified of the subject's updated location and have a few of them diverted to the hospital.

SUPPLEMENT 6

Page 2

18-09733

I assisted in locating potential witnesses. I contacted two employees at the front counter of Dr. Ankur Parikh DDS, 1490 El Camino Real. The subjects told me that they had witnessed a portion of the incident. I obtained their contact information and later it was provided to the San Mateo County District Attorney's Office as a part of their investigation. I also contacted the manager of Tri Counties Bank. I had observed an ATM was affixed to the bank's exterior facing El Camino Real. I knew that a part of the contact that the deputies had with the subject was in front of the bank because of the subject's belongings (backpacks and other small items) were sitting on the sidewalk in front of the ATM. I filled out a request form to have the video footage from the ATM's security camera be saved and a copy of the security footage be provided to us. I know from previous experiences that video security footage can sometimes be deleted or recorded over automatically depending on storage capacities for various systems. I later informed inspectors from the San Mateo District Attorney's Office that I had made that request and the footage would be forwarded to them.

I was instructed by Captain Kunkel to escort the involved Sheriff's Office personnel from the scene back to the Millbrae substation. At the substation, I monitored the personnel and made sure that they did not clean themselves or their uniform / police equipment. I took digital photographs of Sergeant David Weidner, Deputy Alyssa Lorenzatti, Deputy John Demartini, and Deputy Bryan Watt. I later transferred those digital images onto a CD and booked the CD into evidence. The involved personnel were taken to a local hotel and I remained with them until a Inspector from the San Mateo County District Attorney's Office arrived.

**EVIDENCE:**

E/1= 1 CD of digital photographs

### SUMMARY

On 10/03/2018, at approximately 1301 hours, Deputy J. Acosta and I responded to a call of code 3 cover to the city of Millbrae. Upon our arrival, I assisted on scene Deputies with securing the scene, taking photographs and interviewing potential witnesses.

### AWARENESS

On 10/03/2018, at approximately 1301 hours, Deputy J. Acosta and I were in full San Mateo County Sheriff's Office Deputy uniform with visible badge and patches. We were conducting Transit Bureau related follow-up at the Caltrain Station in the city of San Bruno. During this time we heard radio traffic from Millbrae Deputies contacting a subject who was walking in and out of traffic along El Camino Real. The Deputies broadcasted that the subject was tased, but continued to resist. We heard the Deputy broadcast that the subject was tased a second time and the call for code 3 cover was requested. Sergeant Weidner then broadcasted on the air that Deputies were injured and for additional units to continue code 3 cover.

While still approximately half a block away, Deputy J. Acosta exited the patrol car and ran to assist Deputies due to our being slowed by heavy traffic. Once I arrived on scene, I was immediately instructed by Sergeant Weidner to begin to photograph the scene and all individuals involved in the incident.

After taking photographs of the scene, I was instructed by Sergeant Zaidi to canvass the area for potential witnesses and contacted Robert Wesley Garrison. Witness Garrison told me he had recorded most of the incident from inside the bank and would cooperate with law enforcement so that we may obtain a copy of the video. Witness Garrison said he had to go so I took down his contact information and told him either a Detective form the Sheriff's Office, or an Inspector form the District Attorney's Office would contact him shortly.

After canvassing for witnesses, I received statements from Deputy DeMartini which were hand written on paper and to be turned over to the District Attorney's Office once their personnel arrived on scene. Once the District Attorney Inspector arrived on scene, I turned over Deputy DeMartini's written statements. I remained on the outer perimeter of the incident to prevent unauthorized persons from entering the area until I was properly relieved by Deputy M. Sanders.

### STATEMENTS

#### **Statement of Witness Robert Wesley Garrison (Not Recorded/Not Verbatim)**

Witness Garrison told me that he was inside the bank when the incident started. He began to record it with his phone through the windows from inside the bank. He also stated he would cooperate with law enforcement so that we may obtain a copy of the video.

**EVIDENCE**

On 11/15/2018, I provided a CD containing thirty digital photographs taken at the scene to Sergeant Zaidi to be booked into the San Mateo County Sheriff's Office Property Room as evidence.

**The following items were booked into the San Mateo County Property Room as evidence:**

E-1 - (1) CD containing (30) individual color photographs of the scene, involved Deputies and the Suspect.

**NEIGHBORHOOD CHECK**

A neighborhood check of the immediate area around the scene produced a witness and video of the incident. Several other subjects standing on both sides of the perimeter were observed taking pictures, or recording video. When contacted these other subjects elected not to provide statements, or identify themselves to law enforcement.

**POTENTIAL LEADS AND RECOMENDATIONS**

This report was generated as a supplement to case #18-9733.

NARRATIVE - Response to hospital and firefighter interviews

Page 5

18007134

### Summary:

On Wednesday, 10/03/18, Det. McQuade and I responded to El Camino Real and Millwood, Millbrae, to assist the San Mateo County District Attorney's Office Inspectors with an Officer Involved Critical Incident. This report is for documentation purposes only.

### Investigation:

On Wednesday, 10/03/18, at approximately 1445 hours, I received a request to contact DA Senior Inspector Bill Massey in order to assist in an Officer Involved Critical Incident. I contacted Massey and responded to El Camino Real and Millwood, Millbrae, where I met with Massey. Massey informed me San Mateo County Deputies were involved in an altercation with a subject (decedent), in which a Taser was deployed. Massey informed me the decedent was currently at Mills Peninsula Medical Center (Mills) and asked me to respond there.

At approximately 1530 hours, I arrived at Mills and met with San Mateo County Detectives Gaby Chaghouri and John Carroll, who were standing by in a trauma room with the decedent. They informed me the decedent had been pronounced deceased at 1417 hours by Dr. Bryant.

I relieved Detectives Chaghouri and Carroll and stood by with the decedent. At approximately 1542 hours, Deputy Coroner Heather Diaz arrived on scene. Diaz took multiple photographs, did a preliminary exam of the decedent, and inventoried the decedent's property. Diaz provided me with a receipt for the decedent's property, which I later provided to DA Inspector Draper. At approximately 1736 hours, Diaz left Mills with the decedent.

I responded to the San Bruno Fire Department, located at 555 El Camino Real, San Bruno, and met with Fire Captain Sean Brube of Engine #51. Brube provided me the following statement in summary, regarding his response to the incident scene:

### Statement of Sean Brube, summarized and audio taped:

Brube said he responded to a medical aid on El Camino Real near Cappuccino at the request of Engine #37. Upon arrival, they were notified by the Captain of Engine #37 that there was one patient in full arrest. Brube and his firefighters began assisting in providing CPR. Brube personally helped provide ventilations to the decedent and watched over his intern. Once the ambulance arrived, Brube rode in the ambulance, continuing to provide care. Once at the hospital, the decedent's care was turned over to hospital staff.

While on scene on El Camino Real, Brube heard from police personnel and the Captain of Engine #37 that the decedent had been "tased" and possibly pepper-sprayed multiple times. Brube said the decedent still had one of the Taser prongs in him.

*This concluded Brube's statement*

I then spoke with Firefighter Paramedic Jeremy Whiteaker, who provided the following statement in

summary:

### Statement of Jeremy Whiteaker, summarized and audio taped:

Whiteaker said they were dispatched to the call as a "Code 3" PD request and didn't know anything more prior to arrival on scene. Whiteaker drove the fire engine to the scene and assisted in carrying bags to where the decedent was. Whiteaker assisted in preparing a bag for the introduction of medication into the decedent. He assisted in moving the decedent onto the gurney and into the back of the ambulance. Whiteaker was aware the decedent was in full arrest while treatment was being administered, but didn't know what happened prior to his arrival.

*This concluded Whiteaker's statement.*

I later placed these audio recorded statements onto a CD and booked the CD into the property room as evidence.

**SUMMARY:**

On Wednesday, 10/03/2018, Detective Scholes and I responded to the area of El Camino Real (SR-82) and Millwood Drive, in Millbrae, to assist the San Mateo County District Attorney's Office Investigations Bureau with an Officer-Involved Critical Incident. This report is for documentation purposes only and in regard to San Mateo County District Attorney's Office *case #18-1003-02*.

**INVESTIGATION:**

On Wednesday, 10/03/2018, at approximately 1515 hours, I was asked to respond to the area of El Camino Real (SR-82) and Millwood Drive in Millbrae to assist the San Mateo County District Attorney's Office Investigations Bureau with an Officer-Involved Critical Incident. I was instructed to respond to the above location and meet with Senior Inspector Bill Massey.

At approximately 1540 hours, I arrived on scene and met with Senior Inspector Massey. He provided me a brief summary of the events that unfolded which led to their response. I learned several San Mateo County Deputies were involved in a violent altercation with a subject, who will be referred as the decedent for the remainder of this supplemental report. Further, the Deputies utilized their tasers and "OC spray" (oleoresin capsicum) during their attempts to take the decedent in to custody. After the decedent was successfully detained in handcuffs, cardiac arrest was witnessed in the decedent by the medical personnel. The decedent was subsequently transported to Mills Peninsula Hospital, in Burlingame, where he was pronounced dead.

Senior Inspector Massey informed me there was a large response of medical personnel to the scene that included various Fire Department and AMR members. Senior Inspector Massey requested I interview the involved medical personnel and obtain statements pertaining to their individual actions and observations while at the scene.

Afterwards, I met with Sergeant Trickett of the San Mateo County Sheriff's Office. I requested the CAD history of the medical personnel that responded to the area of El Camino Real (SR-82) and Millwood Drive in Millbrae. He contacted a member of the San Mateo County Sheriff's Office and facilitated my request of the incident's CAD history. I then responded to 581 Magnolia Avenue in Millbrae, which Sergeant Trickett said was a San Mateo County Sheriff's Office sub-station.

After I received the CAD history, I learned the following medical personnel responded to the scene:

- Fire Engine #37 of the Central San Mateo County Fire Department. Their station was located at 511 Magnolia Avenue, in Millbrae.
- Fire Engine #51 of the San Bruno Fire Department. Their station was located at 555 El Camino Real, in San Bruno.
- AMR (American Medical Response) unit numbers 37 and 94. Both unit numbers were based out

### SUPPLEMENT 1 - Response to Incident Command Post and Interviews with Fire Dept and AMR Personnel

Page 8

18007134

of the main San Mateo County AMR headquarters, which was located at 1510 Rollins Road, in Burlingame.

Due to my close proximity to Fire Engine #37 (511 Magnolia Avenue), I elected to respond there first. At approximately 1630 hours, I arrived on scene and met with Fire Captain Donnelly of the Central County Fire Department. I asked him if I could speak with all of the members of his station that had responded to the critical incident noted above. He informed me I could and designated a private briefing room in the station in order to do so. He asked if I wished to speak with all of the members together or individually, and I told him individually in order to preserve the integrity of their subjective observations.

I first spoke with Captain Donnelly. He informed me he was a Fire Captain with Engine #37, which was a part of the Central San Mateo County Fire Department. He then provided me with the following statement in summary.

**The following statement of Donnelly, summarized and audio recorded:**

Donnelly told me Engine #37 was dispatched on a medical call and they were given instructions to stage nearby until the scene was deemed secure. He said they did not have a lot of information on the initial dispatched call; however, he remembers the dispatcher saying the "the patient" (decedent) had been tased. Donnelly said he was accompanied by two "professional firefighters" who were considered firefighter paramedics, one firefighter-intern, and that he himself was a firefighter-EMT.

Donnelly said they were instructed to stage at El Camino Real (SR-82) and Santa Helena Avenue. He said they were unable to reach their designated staging point due to the traffic congestion on El Camino Real from the law enforcement-related incident. He said they then elected to park at El Camino Real and Millwood Drive.

Donnelly said once the scene was deemed secure, they drove slightly forward and parked at El Camino Real and Capuchino Drive. He said he told his crew members to "keep their head on a swivel," due to a lot of law enforcement personnel in the area and the amount of onlookers in the general vicinity. He said he met with a San Mateo County Sheriff's Office Deputy, but said he did not know his name. He said the Deputy pointed to the decedent who was detained in handcuffs behind his back. He said the Deputy told him the decedent had ripped off one of the taser "barbs" (probes) during the altercation and that the decedent had been tased twice.

Donnelly said the Deputy also told him there were approximately three Deputies that had been exposed to pepper spray, two of which declined medical attention. He said due to the amount of patients he had at the scene (the decedent and three Deputies), he immediately requested another fire engine and a Battalion Chief to respond to his location. He said he then immediately assigned one of his paramedics to attend to the decedent, and another to attend to the two Deputies that had been exposed to pepper spray. He said one of the Deputies that appeared to have been exposed to pepper spray, also appeared to have visible "trauma" on his face.

### SUPPLEMENT 1 - Response to Incident Command Post and Interviews with Fire Dept and AMR Personnel

Page 9

18007134

Donnelly said when he arrived on scene, the decedent was seated on his buttocks, in an upright position, with both of his legs outwards and in front of him. He said the decedent's back was being supported by a Deputy's legs, who was standing upright and directly behind the decedent. Donnelly said he did not have any interaction with the decedent personally, so he was unaware if the decedent was talking aloud or responding to an outside stimulus. Donnelly said he did not see any visible injuries on the decedent and assumed he was breathing because his paramedic assessed him and did not notify him immediately of the full arrest.

Donnelly said Engine #51 from the San Bruno Fire Department arrived on scene. He said almost immediately after they arrived on scene, he learned the decedent had gone in to "full arrest" (cardiac arrest).

Donnelly said one of the Deputies had blood on his face, which he presumed to be some sort of facial injury. He said the injury was on the Deputy's left side of his face; however, he was unsure if the injury was a laceration or abrasion. Donnelly then told me Firefighter Paramedic Mazza, who was assigned to the injured Deputy, immediately ceased medical aide on the Deputy and attended to the decedent because he was in "full arrest."

Donnelly said the medical personnel continued to provided life saving measures. He said the decedent was then loaded up on to an ambulance and transported to the hospital.

*End of statement.*

After speaking with Donnelly, I then spoke with Firefighter Paramedic Mark Mazza. He informed me he was assigned to Engine #37, which was a part of the Central San Mateo County Fire Department. He then provided me with the following statement in summary.

#### **The following statement of Mazza, summarized and audio recorded:**

Mazza told me Engine #37 was dispatched on a medical call and were given instructions to stage nearby until the scene was deemed secure. He said the "PD" (Police Department) requested a Code 3 cover response (respond with their emergency lights and sirens activated), which was why the scene needed to be secured before they entered.

Mazza said they staged at El Camino Real (SR-82) and Millwood Drive. He said they were notified the scene was secure and they then moved closer to the scene near Capuchino Drive. He said after they parked, he immediately exited, grabbed his medical supplies, and said his Captain (Donnelly) assigned him to the injured Deputy, Deputy Wang.

Mazza said as he walked up to Deputy Wang, he noticed he was leaning on the tailgate of a white pickup truck to what he assumed was some sort of city vehicle. He said he then looked to his right and at a distance, he noticed the decedent was in custody and seated on the pavement. He said the decedent was upright, propped up, and leaning against two Officer's or Deputy's knees and shins. Mazza said the decedent's legs were directly out in front of him in the shape of a "V."

SUPPLEMENT 1 - Response to Incident Command Post  
and Interviews with Fire Dept and AMR Personnel

Page 10

18007134

Mazza said he was approximately 15 feet away from the decedent and he said he appeared to be breathing when he initially saw him. Mazza said he knew the decedent was "pepper sprayed," which was why he saw the snot dripping from his face. Mazza said the snot or mucous dripping from the decedent's face was moving and that his abdomen appeared to be rising and falling as if he was inhaling and exhaling.

Mazza said when he initially assessed Deputy Wang, he noticed he appeared to be dazed and that he had several lacerations to the left side of his face. He said the lacerations were on Deputy Wang's left cheek, near his left eye, and said there was visible swelling near the injuries. Mazza said he asked Deputy Wang if he was "hit" and what caused the injury. He said Deputy Wang confirmed with him he was in fact hit in the face. He said Deputy Wang also said his face was "grabbed" by the decedent. Mazza said Deputy Wang also complained of pain to his right wrist.

Mazza said he felt the area around Deputy Wang's injuries and said all of the bones felt as if they were intact. Mazza said he asked Deputy Wang if he had any other injuries and he said that his right wrist was also injured. He said while speaking with Deputy Wang, he noticed several other Deputies with their noses running and spitting on the ground. He said he recognized this behavior to be consistent with being exposed to "OC Spray" (oleoresin capsicum).

Mazza said he applied a blood pressure cuff to Deputy Wang, then went to the fire engine to retrieve sterile waters for the Deputies that were exposed to the "OC Spray." Mazza said as he went back to Deputy Wang, he noticed the blood pressure cuff was still filling up with air. He said the firefighter paramedic that was attending to the decedent immediately yelled to him that they needed the blood pressure machine immediately. Mazza said he looked over and saw the medical personnel had begun CPR (Cardiopulmonary Resuscitation) on the decedent.

Mazza said he removed the blood pressure cuff off of Deputy Wang before it was done filling up and brought it over to the medical personnel that were attending to the decedent. He said he retrieved his medical supplies and positioned himself near the decedent's head. He said he heard the blood pressure reader's tone and knew instantly to get emergency drugs. He said they then elected to cut the decedent's clothes from his body in order to administer an "I.O." (Intraosseous Infusion) to the decedent's shin. Mazza explained to me an "I.O." was a process used to provide fluids and medications into the bone marrow when intravenous access is not available or feasible.

Mazza said he handed off the drill and supplies to do an "I.O." to a member of AMR as he disinfected the site. Mazza said he heard the flatline on the blood pressure machine, so he got the epinephrine ready. Mazza said he took the decedent's blood sugar levels from his index finger on his left hand and found it to be 103, which he said was in normal limits.

Mazza said he did not see any visible injuries to the decedent's front side when he initially saw him. Mazza said they later rolled the decedent on to a "mega mover," which he said was a large canvass litter with handles that assists them with moving people from the ground and on to a gurney. He said when the decedent was lifted on to the gurney, a Police Office Cadet or Trainee removed the handcuffs from

the decedent's wrists. He said when the handcuffs were being removed, he noticed abrasions on the decedent's outer hands and knuckle areas. Mazza said when he cut away the decedent's pants, he did not see any injuries to his legs.

*End of statement.*

After speaking with Mazza, I then spoke with Firefighter Paramedic David Novelli. He informed me he was assigned to Engine #37, which was a part of the Central San Mateo County Fire Department. He then provided me with the following statement in summary.

**The following statement of Novelli, summarized and audio recorded:**

Novelli said he could not remember the specific dispatched call, but remembered the specific instructions that they were to stage nearby until the scene was deemed secure. He said he felt the initial call was a "medical aide and to stage out" at El Camino Real and Capuchino Drive.

Novelli said while they were en route, he remembered them being updated that there was a taser deployment. He said the traffic was congested when they arrived and staged a few blocks away. He said several other police department vehicles arrived on the scene simultaneously with their emergency lights and sirens activated, which he knew the call was likely a serious in nature. Novelli said he also saw several officers running to the scene and knew that based off of their actions he suspected an officer was in need of assistance.

Novelli said after the scene was deemed safe and secure, they drove closer and his Captain told them to "keep their heads on a swivel." Novelli said Donnelly was talking to an Officer or Deputy and that he appeared to be trying to ascertain what they had. He said he then noticed the injured Officer, although he did not know his name.

Novelli said he noticed abrasions to the injured Officer's left side of his face as he was leaning up against the tailgate of a pickup truck. Novelli said he then looked to his left and saw the decedent was seated upright and within the #2 lane of northbound El Camino Real (SR-82). He said as he was making his initial approach, the injured officer was "tracking him" and the decedent's face was down. He said because of this, he then elected to attend to the decedent first.

Novelli said the decedent was sitting down on his buttocks with his legs and feet directly out in front of him. Novelli said the decedent was handcuffed behind his back and leaning against two Officer's or Sheriff Deputy's legs. He said the decedent was not slumped forward and that he was leaning back against the legs of the Officers.

Novelli said the first AMR unit arrived on scene. He said the Paramedic from the AMR unit met him at the decedent and they both assessed the decedent for his level of alertness. Novelli said the decedent did not respond, so they both checked for a pulse at the decedent's carotid arteries. Novelli said both he and the AMR Paramedic agreed they felt a pulse on the decedent. Novelli said as he checked for a pulse, the decedent shook his head back and forth twice.

SUPPLEMENT 1 - Response to Incident Command Post  
and Interviews with Fire Dept and AMR Personnel

Page 12

18007134

Novelli said the scene was chaotic as there were numerous bystanders nearby. He said he and the AMR Paramedic elected to get the decedent out of the street and into the back of an ambulance. He said the decedent was very large so the AMR Paramedic went to the ambulance to get a gurney and a "scoop stretcher." He said by the time the AMR Paramedic got back, they both realized something had changed in the decedent's appearance so they checked for his pulse again.

Novelli said they checked the decedent's pulse again and said they were unable to feel a pulse in his carotid area. He said they laid the decedent down, checked for a pulse again per procedure, then immediately began CPR because they were unable to find a pulse rate. He said he began CPR and then Engine #51 from the San Bruno Fire Department arrived on scene.

Novelli said the Captain from the San Bruno Fire Department's Engine #51 notified him he had a Paramedic Intern accompanying him and asked him if he could "run the scene." Novelli said it was common practice to have an intern take control of the scene to better assess their abilities in the field, get them as many contacts as possible, and so they can progress through their training.

Novelli said he relinquished the scene to the Paramedic Intern from Engine #51 and then continued with his CPR application. Novelli said both he and the Intern from Engine #37 each took turns with the CPR application. He said after his first sequence of CPR was done, he went to where the injured Officer was to get an idea of what had transpired so they could better treat the decedent.

Novelli said the injured Officer (Deputy Wang) told him when he first saw the decedent, the decedent was walking east on Millwood and against a red light, crossing El Camino, and walking into oncoming traffic. He said the Officer told him he conducted a u-turn and drove next to the decedent and told him he needed to talk to him. He said the Officer described the decedent to be "zig-zagging" across all 6 lanes, northbound on El Camino Real.

Novelli said the injured Officer said he deployed his taser and pressed the taser trigger two to three more times. Novelli said he overheard another Officer may have deployed a taser as well, and that "OC spray" may have been used as well. He said due to the amount of mucous coming from two of the Officers, he knew "OC spray" to have been used. Novelli said the two Officers that were exposed to the "OC Spray" remained with the decedent despite their exposure until they were relieved by medical personnel.

Novelli said they cut off all of the decedent's clothes and did not notice any obvious injuries on his person. Novelli said he did see a taser probe in the decedent's chest, immediately right of his sternum. Novelli said he did not want to pull the taser probe out, so he cut around the probe and wire. He said after the "cut away" was complete, the probe remained in the decedent's chest and there was a small piece of shirt stuck to the wire and probe as he cut around them. Novelli said during his entire time around the decedent, the decedent did not make any statements or speak at all.

Novelli said he went to his fire engine to get his suction equipment and by the time he returned, the rest of the medical personnel were lifting the decedent on to the gurney and putting him in to the back of the ambulance. Novelli said after the decedent was placed in the back of an ambulance, he was approached

and Interviews with Fire Dept and AMR Personnel**

Page 13

18007134

by a San Mateo County Sheriff's Office Sergeant who asked him to attend to his injured Officer (Deputy).

Novelli said he went to the injured Officer, who was seated in the rear of a patrol vehicle. He said a Sergeant collected the injured Officer's duty belt, uniform shirt, and vest. Novelli said he then went to Peninsula Hospital with the injured Officer within AMR unit 94.

Novelli said the injured Officer began to complain of pain to the left side of his face, the right side of his neck, and his right wrist. He said the injured Officer's face appeared as if it was no longer actively bleeding, so he decided to establish an I.V. in his arm in the event the hospital would provide him with pain medications. Novelli said while they were driving to the hospital, the injured Officer mentioned the decedent was "actively" trying to attack him. Novelli asked the injured Officer if he was struck by a flailing hand of the decedent to ensure no weapon was used. He said the injured Officer clarified that no weapon was used; however, he said the decedent was trying to hit him in the face.

Novelli said when they got to the hospital, the injured Officer's injuries did not appear to be "deep" lacerations. I asked him if they were similar to abrasions and he said he could not say.

*End of statement.*

After speaking with Novelli, Donnelly informed me the medical personnel from AMR unit 94 were waiting in the living room of the fire station. I then spoke with EMT Field Training Officer Ferdinand Retanubun. He informed me he was assigned to AMR unit 94. He then provided me with the following statement in summary.

**The following statement of Retanubun, summarized and audio recorded:**

Retanubun said he was driving AMR ambulance 94 in San Mateo on Highway 101 when they overheard the AMR supervisor requesting an additional AMR unit to the above incident. Retanubun said they overheard the AMR supervisor ask what the nature of the call was over the radio. He said the medical dispatcher informed him it was an Officer-involved tasing and pepper spray incident.

Retanubun said they arrived on scene and parked at El Camino Real directly behind AMR unit 37. He said when he arrived on scene he first noticed a large amount of bystanders with their cell phones recording the scene. He said he then saw the decedent on the ground, handcuffed behind his back, near a gurney. He said the decedent appeared to not be motionless when he overheard someone say, "Check to see if he's breathing."

Retanubun said his AMR unit was assigned to the injured Officer who was bleeding from the face. He said after they were given their assignment, they took the injured Officer in the back of the ambulance to render medical aid to his face. He said before they were able to attend to the Officer's face, the injured Officer elected to retrieve his cell phone from his patrol vehicle. He said he exited the ambulance to follow the Officer. He said as he was following the Officer, he noticed the other medical personnel were "working" (applying life saving measures) on the decedent.

Prepared By: 2069 MCQUADE, JOSHUA	Date: 10/04/2018	Approved By: 1225 BARTON, MICHAEL	Date: 10/12/2018

**SUPPLEMENT 1 - Response to Incident Command Post  
and Interviews with Fire Dept and AMR Personnel**

Page 14

18007134

Retanubun said he presumed the decedent had gone in to cardiac arrest. He said his partner told him the Officer was walking around and appeared to be fine in comparison to the decedent, so he went over to the decedent's location to assist. He said his partner, later identified as Paramedic Pham, stayed with the injured Officer.

Retanubun said while he was with the decedent, the medical personnel were administering CPR and providing air to the decedent. He said he noted there were adequate personnel applying aid to the decedent, so he made himself available in case someone needed relief during the chest compressions. He said he also saw a female EMT with AMR unit 37 and that he told her she needed to be free (available) to drive the ambulance to the hospital when they were ready to transport the decedent.

Retanubun said the fire intern from Engine #51 was attempting to intubate (insert a tube in to the trachea) the decedent. He said he then relieved one of the medical personnel and began administering CPR to the decedent. Retanubun said while he was administering CPR, the decedent was hooked up to an ECG machine, and he noted the decedent did not have a pulse. Retanubun said they continued CPR when one of the paramedics told everyone, "We need to get this guy going."

Retanubun said they put the decedent on to a "mega mover," when he noticed the decedent still had handcuffs on. He said he saw a Police Cadet nearby who assisted them with the removal of the handcuffs. Retanubun said after the handcuffs were removed, the decedent was placed on a gurney and brought to an ambulance.

Retanubun said he was still applying CPR to the decedent, so he elected to go to the hospital with the decedent. He said the Fire Intern, the Engine #51 Captain, and the Paramedic from AMR unit 37 were also with him in the back of the ambulance. He said the EMT from 37 was the one driving the ambulance. He said he then went to the hospital with AMR unit 37. He said medical aid was rendered to the decedent the entire way to the hospital.

Retanubun said he did not notice any visible injuries on the decedent's chest, with the exception of a single taser probe that was stuck in the right side of the decedent's chest. He said the taser probe was within the skin and that there was a small piece of shirt that was around the probe and wire when the decedent's shirt was cut off.

Retanubun said the injured Officer did not tell him how he sustained his injuries. He said he overheard there was "a scuffle" and that several Officers were exposed to pepper spray.

*End of statement.*

After speaking with Retanubun, I then spoke with Paramedic Patrick Pham. He informed me he was assigned to AMR unit 94 and was Retanubun's partner. He then provided me with the following statement in summary.

**The following statement of Pham, summarized and audio recorded:**

### SUPPLEMENT 1 - Response to Incident Command Post and Interviews with Fire Dept and AMR Personnel

Page 15

18007134

Pham said he was the Paramedic assigned to AMR unit 94. Pham said they were dispatched on the report of a "police request for medical aid," but the information was limited. He said when they arrived on scene, they overheard there were several patients who had been exposed to pepper spray.

Pham said he was initially tasked with the primary care of two injured Sheriff's Department Deputies. Pham said he was assigned to an Asian Deputy with abrasions to his face (Deputy Wang) and a bald Deputy who had been exposed to OC spray. Pham said when he initially saw the injured Deputy, he noticed a Firefighter was assessing him, so he did not get a good look at him. He said the injuries on the injured Deputy appeared to be a laceration on the left side of his face, near his eye. He said the laceration did not appear to be bleeding too bad. He said he also noticed a small abrasion to the Deputy's right hand.

Pham said the injured Deputy was trying to tell him what had happened; however, due to the amount of chaos at the scene and people talking over one another, he did not remember his accounts of what had happened.

Pham said when he arrived at the scene, he noted the decedent was "shirtless" and his chest was exposed. He said the decedent was being attended to and said the primary Paramedic appeared as if he was trying to get the decedent to the hospital as fast as possible. Pham said while he was still attending to the Officers, he overheard somebody say the decedent did not have a pulse so they initiated CPR.

Pham said he did not hear the decedent say anything when he was on scene. He said the decedent was on his back with handcuffs on when he arrived. He said he did observe any injuries on the decedent because there were too many people attending to him. Pham said the decedent was placed on a monitor, provided CPR, ventilation, and cardiac medications (epinephrine).

Pham said the decedent was loaded up on to an ambulance and he was left at the scene to attend to the injured Officer. Pham said he went back to the injured Officer who was now seated in the front passenger seat of a patrol vehicle. He said both he and a Firefighter Paramedic attended to the Officer. Pham said the injured Officer did not elaborate more on the altercation.

Pham said he could not recall any other pertinent details.

*End of statement.*

After speaking with Pham, I then spoke with Central County Fire Department Battalion Chief Jeffrey Baker. He informed me he was one of the Battalion Chief's at the scene. He then provided me with the following statement in summary.

#### **The following statement of Baker, summarized and audio recorded:**

Baker told me he has a phone that monitors all six of the fire stations assigned to the Central County Fire Department. He said he has the ability to hear all of the dispatched calls from this mobile device. He

### SUPPLEMENT 1 - Response to Incident Command Post and Interviews with Fire Dept and AMR Personnel

Page 16

18007134

said he was at the Engine #37 station on Magnolia Avenue when he saw 5 or 6 patrol vehicles leave the next door with their emergency lights and sirens activated. He said he then overheard the Police request medical assistance near the area of El Camino Real.

Baker said when he heard Captain Donnelly and the rest of his crew members arrive on scene, he heard the request for an additional fire engine and a Battalion Chief. He said due to the relative close proximity, he assumed he was the Battalion Chief that needed to respond; however, San Bruno Fire Department's Battalion Chief responded as well.

Baker said he left regardless and went to the scene. Baker said Captain Donnelly approached him and asked him if he would assume "IC," which stood for Incident Command. Baker said he instructed Donnelly to assume command of the scene where CPR was being administered to the decedent. He said he would handle the rest of the scene for him.

Baker said all of the necessary medical personnel were already on the scene when he arrived. He said his attention was directed to where there were two injured Officers, one of which appeared to have watering eyes from "OC Spray." He said he asked the injured Officer that was exposed to the "OC Spray" if he was alright, and he said he responded with, "He was fine."

Baker said the Officer pointed him to another injured Officer, Deputy Wang, who had blood on his face. Baker said he did not question Deputy Wang as to what had happened because he was more concerned about how he was doing. He said once he noticed he was talking and seemed relatively "ok," he went back to the Incident Command Post and continued with the scene management.

Baker said he made the proper notifications through his chain of command per his protocol. Baker said he never physically touched any of the patients (the decedent or the injured deputy). He said he did see CPR being performed on the decedent and the medical personnel rolling the decedent on to his side to remove the handcuffs. He said lastly, his last observations were of the decedent being loaded up on to the ambulance for transportation to the hospital.

Baker said he never saw any injuries on the decedent because he was never closer than 20 feet to him.

Baker said he did observe the injured Officer when he was seated within one of the Sheriff's Office vehicles. He said it was difficult to see the extent of the injuries due to the amount of dried blood on the injured Officer's left cheek. Baker said he estimated the injury to be an approximately 1-2 inch laceration on the Officer's left temple area. He said the Officer also told him his right wrist was injured and Baker said he noticed redness and visible trauma to that area.

*End of statement.*

After speaking with Baker, I was informed I had spoken with all of the medical personnel with Central San Mateo County Fire Department Engine #37. I then responded to San Bruno Fire Department Engine #51 which was located at 555 El Camino Real, in San Bruno. While there, I met with Detective Scholes, who assisted me with interviewing the involved medical personnel there.

## DALY CITY POLICE DEPARTMENT

333 90TH ST DALY CITY, CA 94015 650-991-8119

SUPPLEMENT 1 - Response to Incident Command Post  
and Interviews with Fire Dept and AMR Personnel

Page 17

18007134

I first met with Paramedic Intern Gabriel Richardson who informed me he was interning with Engine #51 on "C-Shift." He said his normally assigned as a firefighter on Engine #51's "A-Shift." He then provided me with the following statement in summary.

**The following statement of Richardson, summarized and audio recorded:**

Richardson said he knew Engine #51 was going to be called out to a scene because he saw multiple patrol vehicles drive by with their lights and sirens activated. He said their initial dispatched call was to support Engine #37 and afterwards they never received an update because the scene was only two minutes down the road.

Richardson said when he got there they were instructed to help the decedent whom he said was already on the ground. The medical personnel there informed him the decedent was in full cardiac arrest. He also said due to him being a Paramedic Intern, it was his scene to control in order to improve his training and experience. Richardson stated that due to the hectic nature of the call, he did not have to do much because all of the personnel there were proficient and already knew what to do.

Richardson said he immediately started assigning other medical personnel to various tasks and afterwards he decided they needed to transport the decedent right away. Richardson said they established an airway, provided CPR, and "emergency drugs" (epinephrine) to the decedent. He said they provided "four rounds" of epinephrine to the decedent. He said two of the rounds were administered at the scene and the other two were administered in the back of the ambulance on the way to the hospital.

Richardson said he did not notice any obvious visible injuries on the decedent's person. He said the decedent was unresponsive the entire time he was attending to him. He said he did not hear anything about the incident from anyone else nearby because he was too busy attending to the decedent.

*End of statement.*

After speaking with Richardson, I met with Firefighter Paramedic Michael Paulin, who informed me he was with Engine #51. He then provided me with the following statement in summary.

**The following statement of Paulin, summarized and audio recorded:**

Paulin said they were initially dispatched on a medical aid where Engine #37 was requesting additional assistance. He said they did not change radio frequencies while they were en route, which was why they did not receive an additional update.

Paulin said when he arrived on scene they knew somebody was "down," but were unsure if it was a civilian or law enforcement. He said his team immediately dismounted from the rig, grabbed the supplies they felt were needed, and went to the scene. Paulin said he spoke with a medic from Central County Fire Department and was briefed by him.

Prepared By: 2069 MCQUADE, JOSHUA	Date: 10/04/2018	Approved By: 1225 BARTON, MICHAEL	Date: 10/12/2018

**SUPPLEMENT 1 - Response to Incident Command Post  
and Interviews with Fire Dept and AMR Personnel**

Page 18

18007134

Paulin said he was asked to prep an "I.V." for the decedent. He said he went to the decedent's right leg and established an "I.V." that was flowing properly. He said after it was established, he was tasked with pushing resuscitative medicine through the "I.V." lines. He said he gave two doses of epinephrine to the decedent. Paulin said he did not provide any other medications to the decedent.

Paulin said he assisted another medical professional with applying a "tube tamer" to the decedent's mouth area. He said the "tube tamer" was a device used to hold the airway line in place when someone is intubated. He said after he assisted with the "tube tamer," he helped lift the decedent on to the gurney and in to the ambulance.

Paulin said after the decedent was in the ambulance, he attended to the injured Sheriff's Department Deputy. He said he went over to a patrol vehicle with a medic from Engine #37 and they both attended to the injured Deputy there. He said they then assisted him to an AMR ambulance, where he started taking the Deputy's information that was going to be needed by the medical staff when he arrived at the hospital.

Paulin said he noticed what appeared to be a laceration or an abrasion to the injured Deputy's head. He said the Deputy was complaining of pain to his right wrist and that he also noticed several abrasions on his wrists and hands. Paulin said he did not hear what had happened from the Deputy because they were more concerned about him relaxing and them getting the information needed on to paper.

Paulin said he remembered the Deputy's Sergeant coming over to take his Deputy belt and he said they discussed briefly about where he was going to go. He said after they were done talking, he jumped out of the ambulance and the Deputy was taken to the hospital.

Paulin said he did not see any obvious injuries on the decedent's person because he was focused on his leg area. He said his focal point was establishing the "I.V." and making sure the proper flow continued. He said he did not hear the decedent talk or say anything because he was in full arrest.

*End of statement.*

After speaking with Paulin, I was told the two AMR personnel from unit 37 had gone off duty immediately after the incident. I was told their names were Suzanne Holman and Forrest Uhland. I contacted them both and asked if I could speak with them the following day. We exchanged contact information and I told them I would be contacting them the following morning. Detective Scholes and I then departed the scene without further incident.

On Thursday, 10/04/2018, at approximately 0940 hours, I contacted Holman and asked if she was available to meet for a brief interview about her individual actions and observations at the scene. She told me she was eating breakfast at Morning Wood, located at 260 El Camino Real, in San Bruno. Holman said despite her eating breakfast, she was willing to speak with me there.

I then met with Holman at the above restaurant and she provided me with the following statement in

**SUPPLEMENT 1 - Response to Incident Command Post  
and Interviews with Fire Dept and AMR Personnel**

Page 19

18007134

summary.

**The following statement of Holman, summarized and audio recorded:**

Holman said she was assigned as an EMT to AMR unit 37. She said she was partnered with Paramedic Uhland and that she was the person assigned to driving the ambulance. Holman said she could not remember the exact dispatched call, nor where the exact location where the incident occurred. She said they were instructed to stage a few blocks away until the scene was deemed secure by the law enforcement personnel.

Holman said as they were approaching the scene they had received an update that someone had been tased. She said by the time they got to the scene, law enforcement personnel had cordoned off the area, and said they were ushered in to where the decedent was located. Holman said when she exited the ambulance she noticed the decedent was being propped up by a Deputy or Officer that was standing directly behind him.

Holman said Uhland initially went to the injured Deputy who was bleeding from the head and face area. Holman said a Firefighter Paramedic checked the decedent for a pulse and said he felt a "weak one." He said the Firefighter Paramedic provided a sternum rub to the decedent and said the decedent did not appear to respond. Holman said Uhland instructed her to get the back of the ambulance prepped for a "trauma transport."

I asked Holman if she saw any visible injuries on the decedent and she said she saw a single taser probe that was still lodged in the decedent's "right flank." Holman said when they rolled the decedent over to remove the handcuffs, she noticed several scrapes on his hands and a few small abrasion on his back. Holman said she was unsure if the injuries were there prior or if they were caused by the CPR application. Holman said the decedent did not make any statements the entire time she was around him as he was completely unresponsive.

Holman said she only saw the injured Deputy from a distance. Holman said it appeared as if the Deputy had a laceration to the right side of his head.

Holman said her supervisor then told her to get the breathing equipment ready because the decedent had gone in to full cardiac arrest. Holman said after she prepped the ambulance, she came back out and saw that CPR had been initiated. She said she did not touch the decedent because her role was more comprised of prepping all of the other areas for a hasty transport.

Holman said there was not a lot required of her because there was a large amount of medical personnel already there. She said she then transported the decedent to the hospital within AMR unit 37. I asked her if life saving measures were provided the entire way to the hospital and she replied by saying, "Yes, they absolutely were."

I asked Holman if she was told what had transpired prior to her arrival. She said she overheard multiple conversations and thought the decedent may have been driving erratically in the roadway. Afterwards,

he became combative and it took multiple deployments of a taser to take him in to custody.

*End of statement.*

After speaking with Holman, I contacted Uhland and asked if I could speak with him. He informed me he was attending to car accident patients in San Francisco and that he would be transporting them to Mills Peninsula Hospital in Burlingame. I asked if I could meet him there to obtain his statement and he agreed.

I then responded to Mills Peninsula Hospital and met with Uhland. While there, he provided me with the following statement in summary.

**The following statement of Uhland, summarized and audio recorded:**

Uhland informed me he was assigned as a Paramedic with AMR unit 37 and was partnered with EMT Holman. He said they were dispatched to the above mentioned scene from Mills Peninsula Hospital. He said the initial call was unclear. He said he was told there was a person (decedent) wandering the streets and that the Deputies were approaching him. He said they were instructed to "stage out" and said the staging locations kept changing for them.

Uhland told me when he arrived on scene the first thing he noticed was a Sheriff Deputy leaning up against a vehicle with a "massive scrape on his face" that was bleeding. He said his initial thought was to attend to the injured Deputy; however, he saw the decedent seated on the ground, slumped over, and drooling. He said he went up to the decedent to check for a carotid pulse and he said the Firefighter there said, "Yup, we've got a pulse."

Uhland said when he initially saw the decedent, he noticed he was moving. He said after a few minutes, everyone around the decedent noticed he was no longer responding and that the change was "night and day." He said they checked for a pulse again and did not feel one, so they laid the decedent on his back with the handcuffs still on his wrists. He said they immediately initiated CPR. Uhland said he did not actively render any medical aid himself because he was coordinating the whole scene.

Uhland said one firefighter was maintaining an airway on the decedent, another was applying chest compressions, and another was establishing an "I.V." in the decedent's shin. He said the decedent received two rounds or doses of cardiac medicine (epinephrine). He said the decedent's initial heart rate was "flat-lined." He said the decedent never regained consciousness and his heart rhythm never changed after the initial reading.

Uhland said due to the cardiac arrest being witnessed by them, they elected to transport the decedent immediately. He said they loaded the decedent on to the ambulance and continued life saving measures the entire way to the hospital. Uhland said they administered two more rounds of epinephrine to the decedent during the transport to the hospital.

Uhland said when they got to the hospital, he provided his report to the E.R. doctor. He said the medical

Page 21

18007134

personnel continued to provide the decedent CPR for approximately 20-30 minutes while he was there. He said he then left the hospital and although he did not hear the formal pronouncement, he had later heard the decedent was officially pronounced.

Uhland said he noticed visible scrapes on the decedent's knuckles and hands. He said he felt the scrapes may have gotten worse due to them laying the decedent on his back with his hands still handcuffed behind him. Uhland said he noticed drool around the decedent's mouth which he presumed to have been from the pepper spray. Uhland described the decedent as looking "drunk out of his mind."

Uhland said he noticed a taser probe near the decedent's right chest area near his nipple. Uhland said he did not see any probes in the decedent's back; however, he saw copper wires underneath the decedent's body as he was laying on his back. Uhland said he did not take a lot of time to observe the injuries on the decedent's body because he was in cardiac arrest.

Uhland said when he observed the injured Deputy from 10 feet away, he noticed dried blood on his left cheek. He said it appeared as if someone had "just clawed" down the left side of his face. Uhland said he remembered another Deputy having a possible injured extremity, but said he could not remember where or what extremity it was. Uhland concluded the interview by telling me when he looked at the injured Deputy, he thought to himself, "Man, he's been through it. They really fought."

Uhland said neither the decedent or injured Deputy told him what had happened.

*End of statement.*

I then departed the scene without further incident.

I later routed all of the audio recordings to the case record as evidence.

This concludes my involvement with this case.

NARRATIVE

Page 5

18-2659

## SYNOPSIS:

Detectives responded to the area of El Camino Real and Millwood Ave in the city of Millbrae to assist in an investigation with the San Mateo County DA Investigators Office. An Outside Assist case was taken to document the incident.

## NARRATIVE:

On 10-03-18 Myself and Detective Russell responded to the city of Millbrae to assist the San Mateo County District Attorney's Investigators Office with a death investigation. Once on scene we met with Lead Investigator Bill Massey. He requested that we conduct a canvas of the area.

*Statements are not verbatim please see View Recording for full statement*

I contacted (W) Renee Lau, and she provided me with the following statement. Lau stated that she was inside of the Kumon Math Center, located at 1400 El Camino Real, when she heard a muffled yelling sound coming from outside. Lau said it was approximately 1300 hours Lau looked outside and she could see some sort of commotion with a lot of Police officers as well as AMR doing chest compressions on a medical patient. After seeing that she went back to her desk.

I contacted (W) Luis Coelhoandrade, and he stated that he did not see anything pertaining to this incident, and the only thing he heard was the sound of police sirens, and he heard that someone had died. Coelhoandrade said he looked outside and saw a lot of police cars and someone "big like me", and when he looked outside he did not see anything. He was contacted at 1470 El Camino Real. Coelhoandrade also said that there are no cameras outside of the store.

I contacted (W) Farida Khalid at the First National Bank Of Northern California. She provided me with the following statement; Khalid said she was sitting behind her teller desk at approximately 1300 hours. Khalid said she was facing El Camino when she started to hear a lot of sirens in the area, and that caught her attention. Khalid said she saw police officers going northbound on El Camino Real, and she then saw a black male, who was approximately 6 feet tall going towards the bank. Khalid said she witnessed 4 or 5 police officers following him, the officers were all males and 1 female. Khalid said she saw one of the officers taser the male however he appeared to not comply and continued to resist. She then witnessed him going away from the area near the bank. Khalid said the officers surrounded him by Cappuccino Road, which is just south of the bank. Khalid said when he appeared to be surrounded, he was near the no u-turn sign that is in the middle of El Camino Real. Khalid said she did not hear any yelling because she was inside of the bank. Khalid stated that even when he was surrounded he was still pushing the officers. She did not see how he was eventually taken into custody or what happened after he was taken into custody as she had returned to work.

I contacted (W) Luzviminda Palatino at the First National Bank Of Northern California. She provided me with the following statement; Palatino said she was sitting at her desk when she saw numerous police cars arriving. Palatino said she was helping a customer that was in her line, and was also on the

NARRATIVE

Page 6

18-2659

phone with a customer service representative for the banking customer. Palatino said since she was doing this she was too preoccupied to pay attention to what was happening outside. Palatino said after the customer left she saw the decedent laying on the ground and the police were conducting cpr on him. Palatino described the decedent as a bigger black male.

I contacted (W) Mayra Martinez at the First National Bank Of Northern California. She provided me with the following statement; Martinez was siting near the drive-through portion of the bank and she was assisting a customer. Martinez said during the incident the customer left to go see what was going on outside, so she decided to follow as well. Martinez said she saw a lot of people on top of the decedent, and he was sitting down, but he was not moving. Martinez said she saw the deputies turn him over and sit him up and when he was sitting up his head was down. Martinez saw the paramedics arrive and do CPR for approximately 15 minutes. Martinez said she did not hear any commotion in the bank before the police started to arrive. Mayra stated that she had video footage of part of the incident and that she would be forwarding that footage to me. I received the footage and booked it into a secure digital media evidence folder.

I contacted (W) Maria Jose at the First National Bank of Northern California. She provided me with the following Statement; Jose was working and she was with a customer, when she noticed a tall black male outside. She said he was less then seven feet tall. She saw that he was walking close to the sidewalk. After seeing him she stated that she went back to the counter to help her customer. Eventually she looked out the window again and observed that the decedent was down on the ground and the police appeared to be trying to revive him. After that Jose returned to work.

I contacted Gia Ferrer at Dr. Ankur Parikh DDS's Office, located at 1490 El Camino Real in San Bruno. She provided me with the following statement; Ferrer was working at the front desk facing El Camino Real, she noticed police lights in the bank parking lot, which is across the street from the Dentist Office. Ferrer stated that she saw the decedent running, and she noticed that he was being chased by police officers. Ferrer and he was described as a black male approximately 5'10-6'00 tall, and heavyset approximately 350 lbs. He was wearing a blue shirt and dark pants, they could have been jeans and they could have been dark colored sweats but they were dark pants. Ferrer said he was running northbound on El Camino Real, and he appeared to be apprehended, there were 6 police officers attempting to detain him. Ferrer said he was resisting arrest and then he began to run into traffic. Ferrer said this was occurring in front of the atm machine on the sidewalk at the bank. Ferrer said the decedent was walking around vehicles in the roadway and he was wandering int and out of traffic. During this time, he was grabbed by two officers in a manner similar to a bear hug. At this time another police officer pointed a taser, with a yellow handle at the decedent. The decedent was able to get out of the officers grip and started to run again. While he was running he fell on his stomach just south of the intersection at El Camino Real and St Helena. After he fell, he appeared to be having a difficult time getting back up, and when he finally got back up the officers were closing in on him.

At this point Ferrer said that the officers taser went off. I asked her how she knew it went off and she said that she saw it go off an she saw the wires on the decedent. After he was struck with the taser prongs he fell to the ground, where he stayed for approximately 30 seconds. The decedent attempted to get up again, however he was struggling to get up, and he was slowly on his knees. At this point he was

on El Camino, in the southbound number 3 lane. The decedent was still attempting to get up and he kept saying "no, no, no", and throughout the entire incident she said she heard "Stop" at least 12 times coming from different officers, starting from when he was running, and then before and after the taser was deployed. Ferrer said she heard several officers yelling stop.

Ferrer said he then ran into traffic and he was able to get onto the north-side of El Camino, during this time cars were coming and this caused them to have to stop. The officers were holding there hands up in an attempt to make the oncoming cars stop. Ferrer recalled the decedent being inn the number 1 lane northbound, and there was a vehicle at the intersection of El Camino Real and Cappuccino. Ferrer saw the decedent touched the vehicle and at this point all of the vehicles were stopped in the roadway. As the officers were surrounding him, a single officer struck the decedent around his stomach area with his baton however it did not appear to phase the decedent. When Ferrer saw this happen she was shocked that this did not cause him to fall down. She was surprised at how much energy that he had. The officer went to try to "hug" him (Detain him) and when this occurred they both fell to the ground causing one of the officers to hit his head on the pavement. At this point there are approximately a dozen people video taping the incident down near the area of El Camino and Cappuccino. When the officer was on the ground with the decedent, other officers started to come around and assisted in trying to detain the decedent. Ferrer said they were still struggling and had a hard time trying to detain him.

From that point on, Ferrer said the incident became very fuzzy because there were too many officers on him, however she could still see him on his back and on his belly bending his knees trying to get up. There was an officer on his knees, with both of his hands on the decedents chest trying to keep him from standing up. The decedent was still fighting and resisting and still wanting to get up. She then saw all of the officers on top of him and then it was a blur. Ferrer said approximately 5 minutes later she saw that AMR was on scene an doing CPR. Ferrer said there was an officer that came in the store, and he was wearing a light blue uniform asking for bottles of water. After the CPR was done for 7 minutes, alternating compressions between officers and EMT, Ferrer stopped watching the incident and went back to work. Approximately 3 minutes later Ferrer went to see what was going on and they were still doing chest compressions. She then saw an officer with an IV bag, holding it up and that is all that she recalls. Ferrer said approximately 25-30 minutes after the incident started the ambulance was gone.

While I was assisting Detective Russell as he was interviewing a witness, I was advised that there was also a subject that had video taped the incident and possibly had video footage. We were notified by (W) Dennis Barboza that his name was possibly "Ken" and that he lived up the street from the business that we were currently at. Detective Russell and I responded to [REDACTED] and attempted to contact the resident in [REDACTED]. I knocked on the door and rang the doorbell multiple times however there was no answer at the door. I located a neighbor and asked if she knew the resident located at apartment #8 and they stated that all they knew was that his name was "Ken" however they did not have a phone number or last name for the resident. I left a business card with my contact information and my case number on the card for "Ken".

I contacted San Bruno Dispatch and County Communications and inquired whether or not they had previous contact at that apartment and both dispatch centers stated that they did not.

## SUPPLEMENTAL REPORT:

On 10-03-2018, at approximately 1430hrs, Detective Ordone and I responded to the area of El Camino Real and Millwood Drive in Millbrae to assist San Mateo County District Attorney's Office Inspectors following the death of a subject who was exposed to a Taser deployment. When we arrived on the scene at approximately 1530hrs we contacted DA Senior Inspector Massey, who requested that we attempt to contact any witnesses in the businesses along the street who may have witnessed events related to this case.

At 1470 El Camino Real, an address within the city of San Bruno, at a businesses called "Signorama", I contacted employee (W) Susan Chin. Chin said she had been at her desk in the business when she heard yelling coming from the street. Chin said she looked out the front window of the business and she saw a black man in a blue shirt running. She said the man ran to a point in front of a police car that was parked in front of the store, and when the man arrived at that location Chin saw a bunch of motion. Chin said she did not look out the window after that point. Chin said she was the only person in the business at that time. Chin identified herself with her California driver's license.

At 1486 El Camino Real, in San Bruno, I talked with employee (W) Dennis Barboza. Barboza said that at the time of the incident he was seated in his chair behind the front desk of the business. He heard a siren outside and observed a black man out on the street corner. He heard another siren out front, so Barboza got up and looked outside. He noticed the man was now walking southbound on the sidewalk on the west side of El Camino Real. Barboza saw that the man was carrying two backpacks. Barboza then saw two more sheriff's deputies approached the subject, and the deputies appeared to be surrounding the man near the bank across the street from Barboza's business. Barboza said that around that time the man had taken off his backpacks and raised his arms and the deputies deployed a Taser at the man. Barboza described the man as a big guy, and Barboza recalled the man was mumbling. Barboza further stated that before this first deployment of the Taser, the man had been walking towards two officers who were smaller in stature. Barboza said it appeared the man was going to move the smaller officers out of his way. The officers moved to get control of the man, and the man moved away from the officers. At that time the first Taser deployment occurred, and the man fell forward. Barboza described that the man was laying on the ground with his arms stretched out and he was mumbling. The officers approached and told the man several times to get on his stomach. Barboza said the man kind of got up, and he may have been subjected to the Taser again, but the man fell back to the ground. Barboza said the man got up and began loping across the center median of El Camino Real towards Barboza. Barboza said the man looked at him, and Barboza thought that the man looked like he was high or mentally handicapped. Barboza saw the officers begin to grapple with the man. Barboza recalled seeing an Asian officer and the man fall to the ground. Approximately five officers were then on the suspect. Barboza said one officer took out mace and sprayed the man, and another officer then got up from the group and said he could not see. Barboza recalled that the Asian officer had a cut near his eye, and they were still grappling as an officer said "give me your hands" several times. He then heard an officer say, "Give me your handcuffs." Barboza said he then saw the man sitting upright on the curb and leaning on an officer's leg. The man was drooling and had his head down towards his chest. Officers were asking the man for his name, but Barboza observed no response. An ambulance arrived at the scene and an EMT approached the man and shook his shoulder. Barboza said the man did not respond for approximately 30 seconds. Barboza said the officer, on whose leg the man had been leaning, moved away, and the man fell

backwards. About 30 seconds later the personnel on the scene began administering CPR to the man. Barboza said there had been a man wearing a hat and recording the incident and he alerted an officer to the man recording, but the officer said they did not want to talk to the man because he had been antagonistic towards the officers. Detective Ordone and I attempted to contact this man at the apartment building where Barboza said that man lived, at [REDACTED]. Barboza identified himself by his California driver's license.

The businesses at 1500, 1502 and 1506 El Camino Real were all closed when I walked by. At 1504 El Camino Real I talked with (W) Maria Washington using the Language Line (interpreter #338540) to translate between English and Brazilian Portuguese. Washington said she had been inside the store and went outside. She saw officers trying to get a guy, but he was trying to get away. She saw the officers over the suspect in front of the bank across the street from Washington's business. Washington said it was hard to see what was going on because so many cars were passing by. Washington saw people crossing the street but said her view of the incident was not good. She said the fire department, ambulances and additional officers arrived on the scene.

At the Days Inn, at 1550 El Camino Real, I talked with front desk manager (W) Kirankumar Patel. Patel said he was the front desk manager at the hotel. He said that he was in front of the hotel when he observed a man crossing the busy El Camino Real. An officer tried to stop the man, but the man did not stop. The man was carrying something that was black and wrapped. The police were trying to keep the man from entering the roadway. Patel said one officer alone could not handle the man, so another officer arrived, and then another. Patel said the man appeared to be in the mood to fight and was waving his hands. Patel said an officer shot something and the man went down unconscious. The man then got up and was moving again. Other police officers were arriving northbound on El Camino Real, so the man stopped but still appeared to be uncooperative. Patel said that finally officers surrounded the man. It was unknown what the officers did, but then the man was unconscious again. Patel said the man was saying "no" repeatedly and the officers were saying "stop" repeatedly. Patel allowed me to operate the hotel's video surveillance system and I noticed the system appeared to capture the image of the man walking from the west side of El Camino Real to the center median, in front of the hotel. A patrol car drives past, and the man returns to the west side of the street and starts walking southbound. A patrol car traveling southbound on El Camino Real then stopped and an officer walked or jogged southbound in the direction the man was last seen going and then both subjects were out of the view of the camera. Patel said he would contact the Days Inn corporation and request that the video I had seen would be sent to me. I later received an email with a link to a Dropbox file containing the video I had viewed at the hotel's video surveillance monitor. I saved the video to the Menlo Park Police Department's digital evidence server. Patel identified himself by his Indian passport. Patel said another employee, identified as "Brenda", had recorded some of the incident on her cellular phone.

I contacted Brenda by telephone, using the Language Line (interpreter 663022) for English to Spanish translation. Brenda verbally identified herself as Brenda Landeros. She said she had been working at the front of the hotel when she saw a man that officers had on the ground began to kick at the officers. She then saw the man get up and begin running towards the roadway and traffic. The police officers went after the man and down the street from Landeros they had him on the ground for a second time. Landeros said she did not know how the man ended up on the ground and she said there were cars in the way of

her view of the incident. Landeros emailed me a copy of the video recording she had made of the incident, and I downloaded to the video the police department's digital evidence server.

My interviews conducted during this investigation were recorded using my VieVu digital video recorder. When I returned to the police station at the end of my shift I attempted to download the recorder but encountered problems with the recorder's connection to my desktop computer. When I returned to work on 10-16-2018 I again attempted to download the recorder, and only five video recordings from 10-03-2018 were downloaded, all of which were from contacts made prior to my involvement in this investigation. I have contacted the information technology specialists employed by the City of Menlo Park for assistance in locating the missing videos. I will update this case with a supplemental report if or when the videos are recovered.

## **Recommendation:**

This supplemental report should be added to the case file. A copy of this supplemental report should be forwarded to the San Mateo County District Attorney's Office, attention Senior Inspector Massey, in regards to SMDAO case 18-183-02.

## SUPPLEMENTAL REPORT:

As of 10-31-2018 the videos I recorded during the course of this investigation have not been recovered. The technology department of the City of Menlo Park has attempted to locate the videos and have been in contact with the body-camera company, Vie-Vu, as part of their efforts to see if the videos could have been lost either on the device or during the download process. Vie-Vu has stated that because recordings from earlier in the day downloaded correctly, there appears not to be a problem with the camera. All videos downloaded by all Menlo Park Vie-Vu cameras for the date of 10-03-2018 have been checked, and none of the downloads are of my interviews in this case.

### **Recommendation:**

This supplemental report should be added to the case file. A copy of this supplemental report should be forwarded to the San Mateo County District Attorney's Office, attention Senior Inspector Massey.

Agency: District Attorney's Office  
Agency Case Number: 18100302  
Charge: IN-CUSTODY DEATH  
Suspect: OKOBI CHINEDU  
Victim: CONFIDENTIAL**

## **CRIME SCENE INVESTIGATION REPORT**

### **OVERVIEW**

On October 3, 2018, at approximately 1348 hours, I received a call from County Radio who informed me that the District Attorney's Office was requesting the forensic investigation of an in-custody death that took place near the corner of El Camino Real and Santa Helena Avenue in Millbrae. Criminalist Cindy Anzalone and I arrived at the location at approximately 1440 hours and met with Sergeant Trickett who related the following information:

*Deputy Wang made contact with a man who was walking in the middle of the street. The contact, which initiated in front of the bank, escalated and turned into an altercation. A taser was deployed and used, at least, twice. The officers and suspect made their way across the street, where the altercation ended in front of 1470 El Camino Real. Cones were placed over pieces of evidence to prevent them from being blown away.*

Criminalist Cindy Anzalone and I departed the scene at approximately 2122 hours on October 3, 2018.

### **PURPOSE OF EXAMINATION**

The purpose of the examination was to photograph, document, search, and collect evidence from the scene.

### **EVENT DESCRIPTION**

When we arrived at the scene on El Camino Real in Millbrae, it was sunny with a slight overcast, and a strong breeze. Multiple large cones were located on the west side of El Camino Real, covering potential evidence. There were also multiple taser AFID's, pieces of a taser door, taser doors, clothing, and sunglasses located in front of 1551 El Camino Real (on the west side of the street). Medical equipment, along with taser wire, and a towel were located in front of 1470 El Camino Real (on the east side of the street).

Officer Wang's duty belt and weapon was photo documented but not collected at the scene.

It was also stated by Inspector Giguere that Community Service Officer (CSO) J.K. Gonzales had multiple red/brown stains located on his person from the altercation. I observed red/brown stains on CSO

Technical Review	<i>AA</i>	Date	112918	Administrative Review	<i>Aars</i>	Date	30Nov2018	Quality Review		Date	
------------------	-----------	------	--------	-----------------------	-------------	------	-----------	----------------	--	------	--

Laboratory Number: M18-04432-1  
Report Date: 10/10/2018

J.K. Gonzales' clothing, arm, and hand.

### EXAMINATION RESULTS & CONCLUSIONS

I collected the following from the scene: Sunglasses (ARD 1), black and blue sweater (ARD 2), Taser AFID's, taser doors, and pieces of taser doors (ARD 3 through 19), taser wires (ARD 27 and 28), breathing tube (ARD 29), towel (ARD 30), taser and cartridge (ARD 31), and a police baton (ARD 32).

I collected ten swabs of red/brown stains and two buccal swabs from CSO J.K. Gonzales (ARD 21 through 26).

Criminalist Anzalone documented the scene using overall, mid-range, and close-up photography A total of 560 digital photographs were taken and stored onto eight DVD's (ARD 33).

Criminalist Anzalone documented the scene using the LeicaScan Station C5. The scan data and TruView were stored onto two DVD's (ARD 34, 35).

### EVIDENCE COLLECTED

Tracking Number 1891495 - (ARD 1) Sunglasses  
Tracking Number 1891496 - (ARD 2) Black and blue sweater  
Tracking Number 1891497 - (ARD 3-19) Taser pieces, doors, and AFID's

## CRIME SCENE INVESTIGATION REPORT

### OVERVIEW

On Thursday, October 4, 2018 at approximately 0848 hours, Criminalist Anthony Delmonico notified me of a request to photographically document the autopsy of Chinedu Valentine Okobi.

I arrived at the San Mateo County Morgue at 1115 hours on Thursday, October 4, 2018. The autopsy began at approximately 1130 hours. San Mateo District Attorney's Office Inspector Greg Giguere was present at the autopsy. Dr. Rogers concluded his examination and I departed the morgue at approximately 1420 hours on the same day.

### PURPOSE OF EXAMINATION

I was requested to photographically document the suspect's autopsy.

### EVENT DESCRIPTION

Forensic Pathologist Dr. Thomas Rogers performed the autopsy, assisted by Forensic Autopsy Technicians Maggi Horn and Devan Glensor.

### EXAMINATION RESULTS & CONCLUSIONS

At the direction of Dr. Rogers, I photographed the autopsy using overall, midrange, and close-up digital photography. I captured 107 digital photographs, which I stored onto a DVD (MJF1).

At the request of Dr. Rogers, I swabbed near the eyes of the face of Chinedu Okobi and released the swabs to Inspector Giguere. At the request of Dr. Rogers, I also swabbed the knuckles of both hands of Chinedu Okobi and released the swabs to Inspector Giguere.

In addition, I prepared a copy of the images on another DVD, which I delivered to the Coroner's Office for Dr. Rogers.

### EVIDENCE EXAMINATION REPORT

#### EVIDENCE

The following items were received from Property Officer Ashley Perez on October 22, 2018:

Item 1891620 - One tape sealed box containing:

One 17 Gen 5 9x19 Glock pistol with serial number BFKS476 and x300 Ultra flashlight attachment  
Three magazines

Item 1891621 - One tape sealed box containing:

One duty belt with key, multiple pouches, and holders containing:  
Two handcuffs (no examination conducted)  
One spray can (no examination conducted)  
One radio  
One strap  
One flashlight

#### PURPOSE OF EXAMINATION

The purpose was to sample Items 1891620 and 1891621 for biological material and to examine the items for latent impressions.

#### RESULTS AND CONCLUSIONS

Swab samples were collected from the entire surfaces of the pistol with flashlight attachment and magazines of Item 1891620 after processing was completed. Additionally, swab samples were collected from the entire surfaces of the duty belt with pouches, holders, and key; the radio; the strap; and the flashlight of Item 1891621 after processing was completed. A total of four swabs were packaged, tape sealed, and marked as Item 189262.

Examination of Items 1891620 and 1891621 revealed no latent impressions suitable for comparison or searching in the AFIS database.

**Report Date: 10/25/2018**

**DISPOSITION OF EVIDENCE**

Items 189262, 1891620, and 1891621 will be released to Property.

Please contact the Forensic Biology Section if DNA testing of Item 189262 is required.

Item 1891621 should be resubmitted to the Forensic Laboratory if examination of the handcuffs and spray can will further assist in the investigation of this case.

## EVIDENCE EXAMINATION REPORT

### EVIDENCE

The following items were received from Property Officer Andrea Feyling-Soriano on October 18, 2018:

- Tracking Number 1891620: One tape-sealed evidence box labeled "(1) GLOCK 17 FIREARM W/ (3) EMPTY MAGS...DEPUTY JOSHUA WANG" containing one Glock 17 Gen 5 handgun (serial number BFKS476) with attached Surefire X300 weapon light and three empty magazines
- Tracking Number 1891621: One tape-sealed evidence box labeled "(1) BLACK DUTY BELT, PORTABLE RADIO, PEPPER SPRAY...DEPUTY JOSHUA WANG" containing one black duty belt containing one empty two magazine holster, one empty Bladetech tazer holster, one empty baton holster, one mobile radio holster containing one Motorola radio with attached microphone, two handcuff holsters each containing one pair of handcuffs, one empty sidearm holster, one pepper spray holster containing one can of pepper spray, one belt key ring holder with attached handcuff key, and one empty tourniquet holster and the following:  
A) One Pelican 7060 Flashlight with attached label "1100..." with no apparent stains  
B) Four leather belt keepers attached to each other with no apparent stains

### PURPOSE OF EXAMINATION

The purpose of this examination was to examine the submitted items for the presence of blood.

### CONCLUSIONS, RESULTS AND EXAMINATIONS

A presumptive test for the presence of blood was negative for the red-brown stains/ worn leather spots on the radio holster; and handcuff holster from the duty belt (1891621).

A presumptive test for the presence of blood was negative for the dark spots on the Tazer gun holster and the sidearm holster from the duty belt from the duty belt (1891621).

No staining was observed on the Glock 17 Gen 5 handgun or the three magazines (1891620). No testing was performed at this time.

## EVIDENCE EXAMINATION REPORT

### EVIDENCE

The following item was received from Property Officer Ashley Perez on October 25, 2018:

- Tracking Number 189262: One tape-sealed evidence envelope labeled "Four swabs from Items 1891620 and 1891621" containing the following:
- A) One tape-sealed coin envelope labeled "Two swabs from the entire surfaces of the pistol with flashlight attachment and three magazines after processing was completed (Item 1891620)" containing one swab wrapper containing two swabs with heavy black staining
  - B) One tape-sealed coin envelope labeled "Two swabs from the entire surfaces of the duty belt with pouches, holders, and key; flashlight strap; and radio after processing was completed (Item 1891621)" containing one swab wrapper containing two swabs with heavy black staining

### PURPOSE OF EXAMINATION

The purpose of this examination is was to perform PCR DNA typing on the swabs of contact DNA.

### CONCLUSION

PCR DNA typing using the GlobalFiler kit (Applied Biosystems) determined that low level partial mixtures of DNA from at least two contributors were developed from the swab of the entire surfaces of the pistol with the flashlight attachment and three magazines (189262A) and the swab of the entire surfaces of the duty belt with pouches, holders, and key; flashlight strap; and radio (189262B). Due to the low-level nature of these mixtures and the possibility of dropout, no conclusions can be drawn and these profiles will be deemed inconclusive for comparison purposes. These DNA mixtures are not suitable for entry into the Combined DNA Index System (CODIS).

## San Mateo County Coroner

18-01739

OKOBI Chinedu Valentine

### Conclusion Report

#### Conclusion

On Thursday, December 27, 2018, at approximately 1535 hours, I reviewed this case for the purpose of establishing a manner of death. On 10/03/2018, 36-year old Chinedu Okobi was witnessed by a San Mateo County Sheriff's deputy to cross El Camino Real between Capuchino Drive and Santa Helena Avenue in Millbrae. Multiple deputies responded to the location and attempted to make verbal contact with Chinedu Okobi and to physically stop him. After he was non-compliant with their commands, a deputy deployed a conducted-energy device upon Chinedu Okobi. Despite multiple deployments of the device, Chinedu Okobi continued to be non-compliant and combative. He also attempted to flee. Chinedu Okobi was then restrained and placed in a prone position on the ground by multiple deputies. Oleoresin capsicum spray was deployed and Chinedu Okobi was handcuffed. Chinedu Okobi was moved to a seated position and assessed by deputies. Upon the arrival of fire paramedics, Chinedu Okobi was assessed and found to be unresponsive. Paramedics initiated aggressive cardiopulmonary resuscitation and Chinedu Okobi was emergently transported to the Emergency Department at Mills-Peninsula Hospital. Paramedics continued resuscitative efforts while en route to the hospital. Resuscitative efforts were also continued in the Emergency Department to no avail. Death was pronounced at 1417 hours.

The cause of death was determined to be "Cardiac arrest following physical exertion, physical restraint, and recent electro-muscular disruption" with other significant conditions listed as "Cardiomyopathy".

The toxicology test results indicated no common acidic, neutral or basic drugs, or ethyl alcohol were present in the hospital blood sample tested.

As the death was the result of multiple measures to subdue Chinedu Okobi by law enforcement, and based on the information contained in the Coroner's Investigation Report, Autopsy Report, Toxicology Report, medical records, and multiple videos, I have determined the manner of death to be homicide.

Deputy Coroner Heather Diaz #21
